

DEVELOPMENT AND MIGRATION IN RURAL FRANCE

Contemporary issues in local and regional development – Sybille Cordonnier

TABLE OF CONTENT

How do migration policies influence the integration of asylum seekers in rural areas in France, and what are the political, economic and social impacts of this integration on a regional scale?

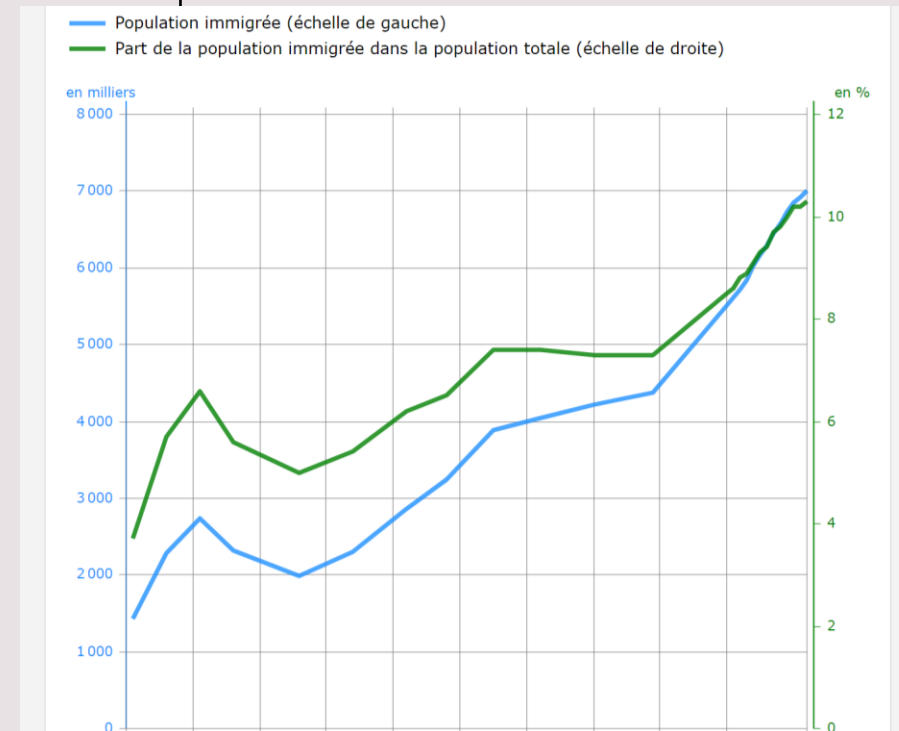

- I. Theoretical analysis of the concept of 'integration'
- II. The decentralization of migration management
- III. The rural migrant integration movement in facts and figures

Insee, estimations de population, des flux d'entrées et de sorties.

INTRODUCTION

- The migration phenomenon in France
- The importance of rural areas in the management the reception of asylum seekers
- Objectives of the study
- Methodology

Insee, recensements de la population (données réajustées en 2019 et 2020) et estimations de population.

I. THEORETICAL ANALYSIS OF THE CONCEPT OF 'INTEGRATION'

1. Definitions of 'integration'

- Analysis of different definitions and theoretical approaches of migrant integration
- Comparison of integration models in France and other countries

2. The dimensions of 'integration'

- Political dimension: civic participation and civil rights
- Economic dimension: access to employment economic contribution
- Social dimension: access to services (health, education), social and cultural inclusion

II. THE DECENTRALIZATION OF MIGRATION MANAGEMENT

1. History and background

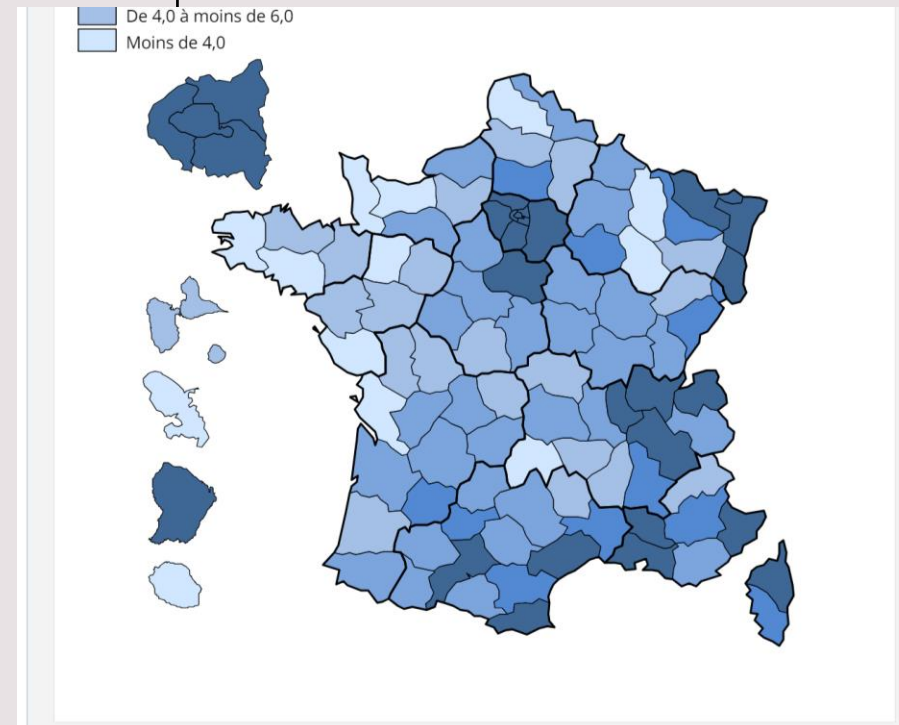

- The evolution of migration policies in France
- The role of the State and local authorities in migration management

2. The decentralization process

- Decentralization reforms of migration management decentralization
- The role of regions and municipalities in the reception and integration of asylum seekers

3. Impacts of decentralization

- On the effectiveness of integration policies
- Regional case studies showing the challenges and successes of decentralization

Insee, estimations de population 2020-2021.

III. THE RURAL MIGRANT INTEGRATION MOVEMENT IN FACTS AND FIGURES

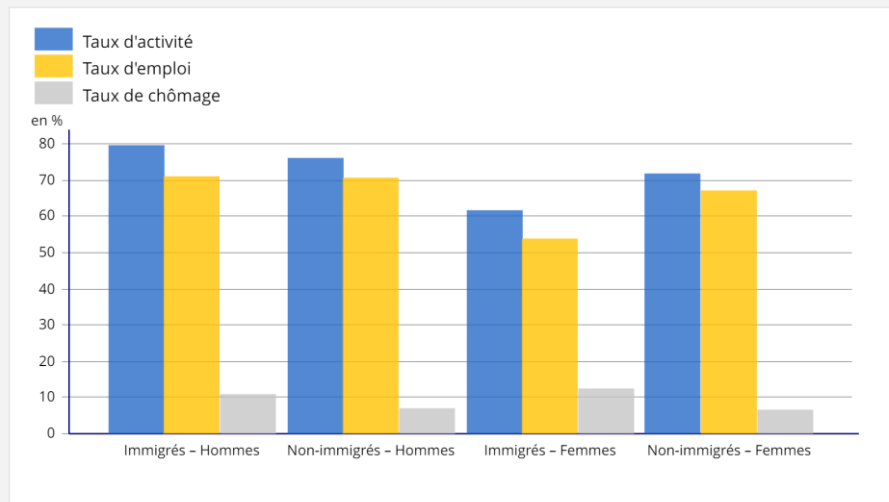

1. Statistical data

- Data on the reception of asylum seekers in rural areas
- Comparison with urban data

2. Social, political and economic impacts

- Impact on the local job market
- The economic contribution of asylum seekers (business start-ups, revitalization of rural areas)
- Social and cultural integration
- Perceptions of local and regional populations and the impact on social cohesion
- Influence on local and regional immigration and integration policies (comparison with national?)

Taux d'activité, d'emploi et de chômage selon le sexe et le statut migratoire en 2022

Insee, enquête Emploi.

CONCLUSION

- Political, economic and social impact
- How can public policy and regional governance be improved?
- The challenge of migration on an international scale: a burning, topical issue that prompts us to change our vision of welcoming others (climatic migration)
- In the context of the European elections: the importance of highlighting the need to develop public policies (in France and elsewhere) that respect human dignity and international laws on the protection of human beings and individuals of all kinds.

An aerial photograph of a rural landscape featuring a complex pattern of agricultural fields. The fields are in various stages of growth or harvest, showing shades of vibrant green, yellow-green, and brown. A light-colored, winding road or path cuts through the fields, creating a sense of movement and structure. Scattered throughout the landscape are small clusters of trees, some standing alone and others in small groves. The overall scene is peaceful and depicts a typical agricultural region.
